**Subject:** RE:

I used the bebepod seat instead of the bumbo cause it has a seatbelt. But you can use the highchair you registered for I just found it easier with the other seat cause I put it on top of the table to feed them and they really aren't good at sitting up at like 4months when they start food and the seat helped them sit more upright than a highchair I thought but it's all whatever you feel comfortable with
